

LOCAL NOTICE TO MARINERS No. 10 of 2014

Tidal Powered Generator Test Rig

MARINERS ARE ADVISED that a tidal current powered generator test rig will be deployed beneath the western span of the Arun footbridge – the Red Bridge.

The generator which floats just below the surface between two sets of pontoon is 4m x 2m and is marked by four buoys positioned at each corner, pontoon floats and a 2m mast. It is secured to risers on the western side of the wooden fendering on the western support to the bridge.

The generator will be deployed on Monday 14th July and will be in position over the week of 14th-18th July. It is intended to recover the rig on or before Friday 18th July.

Mariners are advised against using the western span of the footbridge for the duration of the deployment of this piece of equipment.

Owners, Agents, Charterers, Marinas, Yacht Clubs and Recreational Sailing Organisations should ensure that the contents of this Notice are made known to the masters or persons in charge of their vessels or craft.

Cancel this LNtM on recovery of the rig on or after 18th July 2014.

Billy Johnson
Harbour Master
