

LOCAL NOTICE TO MARINERS No. 06 of 2019

Seasonal Controls on Littlehampton Bathing Beaches

MARINERS ARE ADVISED that a seasonal exclusion zone for power driven vessels is now in force off Littlehampton beaches. Nine yellow marker buoys have been established by Littlehampton Harbour Board and Arun District Council. The buoys are unlit and extend east and west of the harbour entrance beacons at 100m spacing along the boundary of harbour limits.

No power driven vessels (including PWCs/Jet Skis) are permitted inshore of this line of buoys (area shaded orange below). Vessels entering or exiting the harbour should do so between the entrance beacons and keep to the Narrows (area shaded blue below).

In addition, mariners are advised that RNLI Lifeguards are now on duty from 10am to 6pm every day until 8th September. While on duty they will establish a red and yellow flagged bathing zone on East Beach. **No paddle, wind or wave driven craft are permitted between the red and yellow flags.** The width and location of this area will vary based on conditions. The offshore edge of this RNLI bathing zone is marked by the line of yellow buoys.

Littlehampton Harbour General Directions state that power driven vessels are not permitted within the area marked in orange on the Harbour Entrance Plan from Good Friday to the last day of October without the prior permission of the Harbour Master. A person who fails to comply with a General Direction shall be guilty of an offence and liable on conviction to a fine of up to £2,500.

Owners, Agents, Charterers, Marinas, Yacht Clubs and Recreational Sailing Organisations should ensure that the contents of this Notice are made known to the masters or persons in charge of their vessels or craft.

Cancel this LNtM on recovery of the marks on or after 30th October 2019.

Harry Gregory
Deputy Harbour Master
