

LOCAL NOTICE TO MARINERS No. 15 of 2019

Workboat Operations to Remove Deteriorating Timber Structures between Arun Yacht Club and Ballast Island

MARINERS ARE ADVISED that from Monday 18th November the 15m workboat OBERVARGH will be engaged in works to remove the deteriorating timber structures opposite the Public Slipway (between Arun Yacht Club and Ballast Island) on behalf of Arun District Council.

The structures are being removed in the interest of public safety and safety of navigation. The area to be removed is shown in the image below.

Due to tidal constraints, the OBERVARGH will be working through the hours of darkness. They will have restricted manoeuvrability whilst engaged in lifting and cutting operations so all vessels are requested to keep well clear. They will maintain a listening watch on VHF Channel 71.

Owners, Agents, Charterers, Marinas, Yacht Clubs and Recreational Sailing Organisations should ensure that the contents of this Notice are made known to the masters or persons in charge of their vessels or craft.

Cancel this notice on completion of the works later in November.

Harry Gregory
Deputy Harbour Master
